31 August 1945

GENERAL KIRK AT DEDICATION OF MADIGAN GENERAL HOSPITAL

The work of the Army Medical Department is far from over, Major General Norman T. Kirk, Surgeon General of the Army, said in the course of a talk at the recent dedication of Madigan General Hospital at Fort Lewis, Washington. The patient population of Army hospitals reached an all time high with 312,000 listed on the 14th of August, General Kirk stated.

"When it is considered that the average period of hospitalization of our battle casualties is about five and a half months after they arrive in a United States hospital, it can readily be seen that the work of the Army Medical Department does not stop with the cessation of hostilities," General Kirk said.

"With the coming of peace the toll of this war will become but a memory to many," he continued. "To those, however, who were wounded or who have contracted disease, and to their relatives and friends, the war will live on until they have fully recovered."

Major General S. Roy Burston, Director General of Medical Services of the Australian Military Forces, accompanied General Kirk as far as San Francisco, where he departed for Australia.

General Kirk continued a tour of hospitals in the Ninth Service Command with Colonel Luther Moore, Ninth Service Command Surgeon.

COLONEL CLIFFORD V. MORGAN GETS CROIX DE GUERRE WITH PALM

The Croix de Guerre with Palm has been awarded Colonel Clifford V. Morgan, Hq. Command Z, European Theater of Operations. Colonel Morgan, a native of Washington, D. C., received the award from the French Republic for "exceptional services rendered during the course of Operations for the Liberation of France."

MAJOR MARGARET JANEWAY RETIRED FROM ARMY

Major Margaret Janeway, MC, AUS, Assistant to the Consultant for the Women's Health and Welfare Unit of The Surgeon General's Office, and the first woman medical officer to go overseas, was retired from the Army 25 August 1945.

As a result of many requests and demands from her former patients, Major Janeway asked to be retired in order to resume her private practice in New York City.

Entering the Army as a contract surgeon in September 1942, she was assigned to the WAAC in December of that year. On 13 January 1943, Major Janeway, as medical Officer, accompanied the first unit of WAACs to go overseas. They landed at Oran, French North Africa on 27 January, and immediately proceeded to Algiers. Since no plans for medical care of the WAAC had been made in that theater, she was responsible for establishing and providing medical facilities for the care of women. In spite of overwhelming obstacles, air raids, and at times, the lack of material, the feat was accomplished.

On 30 June 1943 she received an honorable discharge from the WAAC, and on 1 July 1943 was commissioned a Major in the Medical Corps, Army of the United States. She continued as medical officer to WAC units at various locations in North Africa and Italy, and served in a number of capacities because her responsibilities increased in proportion to the increase of WAC personnel.

Major Janeway left Italy to return to the United States on 22 March 1944, and on 1 July 1944 was assigned to former duties in the Office of The Surgeon General.

YUGOSLAV AWARD TO GENERAL LEON FOX AND STAFF

The Yugoslav "Medal for Services to the People" has been awarded to Brigadier General Leon Fox, Field Director of the United States Typhus Commission, and to three other members of his staff.

General Fox, a native of Birmingham, Alabama, was awarded the Order First Class, while the Order Second Class was given to Lt. Colonel Edward Murray, Cedar Rapids, Iowa; Lt. Colonel Charles Wheeler, Doon, Iowa; and to Naval Lieutenant Stafford Wheeler, a graduate of Harvard Medical School, who was killed in Bosnia April 13.

Evidence of the Typhus Commission's services is shown by the fact that more than 2,000,000 persons have been immunized since the Commission came to liberated parts of Yugoslavia last January.

FRENCH MILITARY MEDICAL MISSION TOURS MEDICAL DEPARTMENT INSTALLATIONS

A three weeks' tour of Army medical installations was part of the itinerary of the French Military Medical Mission visiting this country to learn something of American military medical practices and policies.

Members of the mission included Major Charles Blancardi, Major Louis Pages, Captain Aime Bengui and Captain Marcel Mouton. Their tour began with an orientation program at the Office of The Surgeon General, including visits to all divisions and branches.

Among the installations visited were: Walter Reed General Hospital, Army Medical School and Laboratories, Army Industrial Hygiene Laboratory at Baltimore, Frankford Arsenal at Philadelphia, where they observed the application of the industrial hygiene program, U. S. Army Respiratory Disease Commission Laboratory at Fort Bragg, N. C., ASF Regional Hospital and the War Department Personnel Center, also at Fort Bragg.

At Carlisle Barracks, Pennsylvania they visited the Medical Field Service School to observe the Basic Medical Officers course, the Medical Administrative Corps Officer Candidate School, Diseases of the Pacific Area training course, and the Medical Equipment Laboratory. They also visited the ASF Training Center at Camp Crowder, Missouri, to witness the Basic Training of Medical Department enlisted men, the Medical Supply Service School at the St. Louis Medical Supply Depot, Medical Department Enlisted Technicians School at Camp Atterbury, Indiana, and the Army Medical Purchasing Office at New York.

RADIO-RECORD PLAYERS

One hundred radio-record player combinations, recently contributed by the Loyal Order of the Moose to the Medical Department, are being distributed to Army hospitals throughout the United States. Shipment of some instruments began in August, and it is expected that the total number will have been distributed shortly after 1 October. They are being shipped to the following types of installations: hospital centers, general hospitals, ASF convalescent hospitals, ASF regional station hospitals, AAF convalescent hospitals, and AAF regional station hospitals.

This contribution was accepted by the Central Hospital Fund some time ago, but production and delivery have been delayed by the difficulty of obtaining materials and component parts. Through the War Production Board, the Supply Service made priority arrangements which enabled the manufacturer to procure the required parts. With the cooperation of the Legal Division, assistance was also furnished the Loyal Order of the Moose in obtaining an exemption from the excise tax.

GENERAL SIMMONS AIDS IN GERMAN PUBLIC HEALTH PROGRAM

Plans for public health control in the American Zone of Germany, which will be coordinated with Russian, British and French groups to insure unified policies, were described recently by Brigadier General James S. Simmons, Chief of Preventive Medicine of The Surgeon General's Office.

General Simmons, who went to Germany with Colonel Thomas B. Turner, Director of Civil Public Health Division of the Army Medical Department, assisted in setting up a new division of public health to function as part of the Allied Control Council as the responsible agency for the control of public health in the American Zone. Major General Morrison Stayer, formerly Chief Surgeon in the Mediterranean area, will be in charge of this new division which will continue during occupation of Germany.

The Army's Civil Public Health work in Europe was originally organized under Major General Warren F. Draper, formerly assistant surgeon general of the United States Public Health Service, who was loaned to The Surgeon General of the U. S. Army. During the SHAEF period he served as chief health officer for the civilian public health program of the Army until the recent dissolution of SHAEF.

The new Division of Public Health of the U. S. Group Control Council is responsible for an orderly and effective health program in the U. S. Zone of Germany so that no focal point will develop to form a potential for epidemic diseases. In spite of the widespread disorganization and dispersing of populations during the stress of war, epidemics have been kept to a minimum, General Simmons said, due to tremendous advances in military medicine and techniques, and also because of the closely coordinated efforts of agencies concerned with the health of our troops abroad.

He offered as an example of effective epidemic control in Europe, the program set up to prevent the spread of louse-borne typhus which increased rapidly in Germany as prisoners began to leave concentration camps and prisons.

In order to prevent the spread of the disease westward, a sanitary cordon was established by SHAEF along the Rhine last March and orders were issued that all civilians would be deloused before crossing it. In addition, delousing was made routine for all typhus patients, for all immediate or remote contacts, and for displaced persons and others who had been in Germany, Poland, or the Balkans and for refugees and inmates of concentration camps, jails, or other institutions.

As planned by The Surgeon General and the U. S. A. Typhus Commission, a stockpile of more than one million pounds of DDT had been placed in readiness with plans for delousing of some eighteen million persons in Europe as soon as military operations permitted, General Simmons said. With the stockpiling of DDT, the delousing program was put into effect as quickly as possible and this has saved the European continent from the typhus scourge that raged through Europe following the first World War.

(GENERAL SIMMONS AIDS IN GERMAN PUBLIC HEALTH PROGRAM, Continued)

Health missions were dispatched from SHAEF to work with governments to restore public health facilities and to see that medical supplies have been made available. These health missions, he said, have been tremendously influential in helping to set up public health programs and have also served to stabilize health control work over the continent.

Production of vaccines is now being stepped up in various European countries in order that they may meet their own needs as far as possible in the preventive measures that will be necessary in the coming months. Nutrition teams have been sent out to survey the food situation. He said that distribution of food is the principal problem in providing for the nutritional needs of people in the war-torn countries.

NEWS FROM NUTRITION DIVISION

Colonel Paul E. Howe, MC, former Director of Nutrition Branch, has just returned from a year of duty as Nutrition Consultant to the Assistant Chief of Staff, G-5, Hq., SHAEF. During this period he helped to organize and put into operation the extensive program for controlling the nutritional state of people of occupied countries. He is presently on recuperative leave of absence at his home.

Major Marvin B. Corlette, MC, formerly Chief, Civilian Nutrition Branch, Nutrition Division, for the past year, has been transferred to the Pacific Theater where he will act as nutrition advisor on the staff of General Crist, the Commanding General of Military Government Branch of AFPAC. His principal duties will be to evaluate the nutritional status of the civilian population, estimate the basic food requirements to maintain a satisfactory state of nutrition, and to recommend the necessary action which should be taken to correct any serious nutritional deficiencies.

Dr. William D. Robinson, Civilian Consultant to The Surgeon General and Captain David L. Mackintosh, SnC, have just returned to this office to report their findings on nutrition surveys made by them as members of one of five nutrition survey teams operating under SHAEF, G-5 (Public Health). Dr. Robinson, as clinician, and Capt. Mackintosh, as Nutrition Officer, made their surveys among civilian populations in France and Germany.

NEW ARMY PICTURES ON VENEREAL DISEASE

Two new Army films, called "Pick Up" and "Easy to Get", will be shown to GIs in all theaters of operations as part of the Army's campaign to keep the venereal disease rate down.

ARMY ESTABLISHES SEVEN CENTERS FOR TROPICAL SKIN DISEASE

Establishment of seven centers specializing in the treatment of tropical skin disease has been announced by Major General Norman T. Kirk, Surgeon General of the Army.

The centers, it was explained by Major Clarence S. Livingood, of Philadelphia, Consultant in Dermatology to General Kirk, will be devoted to the care of men returned from overseas, particularly the Pacific areas. The number of beds involved was not made public, as the program envisions an elastic setup capable of being expanded or contracted as the need arises.

The centers will be at Wakeman General Hospital, Camp Atterbury, Indiana; Brooke General Hospital, Fort Sam Houston, Texas; Moore General Hospital, Swannanoa, North Carolina; Harmon General Hospital, Longview, Texas; and in the U. S. Army General Hospitals at Camp Edwards, near Boston, Massachusetts; Camp Butner, near Durham, North Carolina; and Camp Carson, near Colorado Springs, Colorado.

"The new arrangement will make possible better distribution of the limited supply of specialists in dermatology," Major Livingood said, "and thus give these soldiers the best possible treatment."

At the same time, Major Livingood said that there is no basis for fear of tropical skin infections spreading in this country, because practically none of these diseases are contagious and no patient with a transmissible skin disease would be allowed out of an Army hospital until he was noninfectious.

Acne was given as an example of a common skin disease which flares up in the tropics. One Army doctor working on the problem used the word "explosive" in describing the cases he had seen in the Pacific.

"The skin diseases are not fully appreciated by the public in the glare of the more dramatic developments of surgery and problems like malaria," Major Livingood said. "But it is true that in tropical areas about eight per cent of all Army hospital admissions -- or one in every 12 or 13 -- is due to skin conditions."

One of the dermatologist's main efforts, Major Livingood said, is to keep men from "overtreating" skin disease; but the good nutritional state of the American soldier helps protect him from some of the skin diseases common to natives of tropical areas. Major Livingood cited tropical ulcer as an example, saying ulcerations were frequent enough among Americans, but the peculiar tropical ulcer is rare and he thinks that the native gets it because of his poor diet while the American is free of it because he is well fed.

CIVILIAN-SPONSORED ARMY TECHNICAL UNITS TO BE CONTINUED

Army technical units sponsored and manned by civilian institutions and organizations will not be disbanded after the war, but will be continued in an inactive reserve status as part of the postwar military establishment, the War Department announced.

Early in the war, and in some cases prior to the date hostilities began, authority was granted by the War Department to numerous civilian institutions and organizations to sponsor military units which required personnel with a high degree of professional or specialized training. In general, this authority was confined to the fields of medicine, motor and rail transportation, motion pictures, motor maintenance, and communications.

This program made possible the orderly conversion of the Nation's professional and technical manpower from peace to war at a time when the requirements of both industry and the Army greatly exceeded the availability of such skills. The recruitment of personnel initiated by the sponsoring agencies resulted in the procurement of trained men with which to fashion such specialized units as evacuation and general hospitals, Ordnance depot companies, medium and heavy Ordnance maintenance battalions, railway operating battalions, and Signal Corps units, including operation battalions, construction battalions, aircraft warning battalions, repair companies, depot companies, and photographic companies.

COMMENDATION FOR ARMY MEDICAL LIBRARY TRANSLATION SERVICE

The Chief of Laboratory Service at the Army and Navy General Hospital, Hot Springs, Arkansas, recently sent a letter of commendation to the Translation Service of the Army Medical Library which stated in part: "In the past I have had private translation work done for me, but in no instance have I ever received material that could approximate the standard of excellence consistently rendered by the Army Medical Library."

Although the Translation Service of the Library has a staff of only three persons, translations can be made in sixteen languages. These include Russian, Rumanian, Serbian, Czechoslovakian, Ukranian, Turkish, French, German, Norwegian, Swedish, Danish, Italian, Spanish, Portuguese, Dutch and Chinese.

Up to the present, the volume of requests for this service has been so great that it has been limited to the military medical profession only. It is hoped, however, that future expansion will permit the extension of this service to the civilian medical profession as well.

CURRENT LIST OF MEDICAL LITERATURE

The Adjutant General and The Surgeon General, Major General Norman T. Kirk, have granted permission for the Army Medical Library to take over the publication of the Current List of Medical Literature.

For the last five years this publication has been under the auspices of the Friends of the Army Medical Library and the Medical Library Association. It has rendered a great service in bringing to the attention of the Army Medical Department and the medical profession in general the latest publications in the medical field.

Mr. Ignatius McGuire, formerly in charge of indexing for the Index Catalogue, has been appointed Editor of the Current List. Suggestions from consultants or any other interested persons as to the methods of making the List a more useful publication will be welcome.

GENERAL HAWLEY AND GENERAL CUTLER GO TO VETERANS ADMINISTRATION

Major General Paul R. Hawley, formerly Chief Surgeon of the European Theater of Operations, and Brigadier General Elliott C. Cutler, Chief Medical Consultant with the European Service of Supply, have joined the Veterans Administration staff in Washington, according to a recent announcement of the Office of The Surgeon General.

General Hawley will serve as Medical Adviser to General Omar Nelson Bradley, who recently took office as Administrator of Veterans Affairs. General Cutler will be attached to General Hawley's staff. Both General Hawley and General Cutler have been loaned on a temporary basis to the Veterans Administration.

ASF CONVALESCENT HOSPITAL CONFERENCE HELD AT PERCY JONES GENERAL HOSPITAL

The Army Service Forces Convalescent Hospital Conference held at Percy Jones Hospital Center at Battle Creek, Michigan, from 20th to the 22nd of August was attended by service command surgeons, commanding generals and their assistants, and representatives of The Surgeon General's Office for a discussion of problems confronting Army hospitals.

Brigadier General Raymond W. Bliss, Assistant Surgeon General, as chairman of the meetings, gave the opening talk. The agenda included talks on medical, surgical and neuropsychiatric treatment, reconditioning activities, classification and counseling, admission, treatment and discharge of patients, problems of morale, leave and furlough policy, and organizational and administrative problems. About 100 officers attended the conference.

COURSE IN DISEASES OF PACIFIC AREA GIVEN AT CARLISLE BARRACKS

Selected medical officers being redeployed to the Pacific areas are attending a two-week course in diseases of the Pacific area given at the Medical Field Service School, Carlisle Barracks, Pennsylvania. The purpose of the course is to acquaint them with special problems in the prevention and treatment of diseases peculiar to the Pacific area. Officers with service in the Pacific are used as instructors in the course and bring to the student officers the benefit of their experience. Emphasis in instruction is placed upon the prevention of disease, and includes practical measures in control of typhus, malaria, schistosomiasis, dengue, filariasis, plague, cholera and other diseases commonly met in areas of the Pacific where American troops are serving.

PHILIPPINE ARMY MEDICAL CORPS OFFICERS STUDY U. S. TRAINING METHODS

Six Philippine Army Medical Corps officers have just concluded an eight-weeks' informal course in the Army Medical Department during which they studied methods of Army training in the United States.

The group included Lt. Col. Jose P. Rosales, Lt. Col. Hospicio L. Solidum, Capt. Pedro M. Cruz, Capt. Bernabe S. Galang, Capt. Manrique G. Camus, and 1st Lt. Protacio R. Sotto. Their trip included attendance at the basic Medical Officers Course, Carlisle Barracks, Pennsylvania, which ended August 9. These officers then visited the Office of The Surgeon General and observed training methods of the Army Medical Department.

PAMPHLET ISSUED ON REHABILITATION OF BLIND

For the assistance of those charged with the care and rehabilitation of blind patients the Army Medical Department has issued a booklet entitled "Guide for Those Giving Rehabilitation Service to the Blind". Its purpose is to anticipate and answer the questions arising in connection with this type of hospital care. The booklet is intended for use in Army hospitals and centers specializing in Rehabilitation Service for the Blind.

It contains information for those actively engaged in working with the blind, and also for anyone who comes in contact with the blind. The booklet gives valuable hints on the psychology of dealing with this handicapped group.

LT. COL. HARRY W. WEST NAMED PENNSYLVANIA STATE SECRETARY OF HEALTH

Lieutenant Colonel Harry W. West, former Chief Surgeon of the 28th Division, has been appointed Pennsylvania State Secretary of Health by Governor Edward Martin. Twenty years ago Governor Martin was in command of the Pennsylvania National Guard 28th Division when Colonel West was Division Surgeon of that outfit. Col. West, whose home is at Altoona, was graduated from the Jefferson Medical College in 1919. He has a wife and one daughter, Jean, wife of Ensign Robert E. Houser.

BRONZE STAR MEDAL AWARDS

The War Department has just announced the following awards of the Bronze Star Medal:

ARIZONA - Captain Merle M. Musselman, MC, Tucson.

CALIFORNIA - Captain Charles F. Lewis, MC, Oakland; Staff Sergeant Frederick Rabin, Long Beach; Corporal Benjamin Cabreira, Fresno.

CONNECTICUT - Major Luther C. Heidger, Posthumous, Stratford; Technician Fifth Grade Albin A. Gorecki, Deep River.

FLORIDA - Staff Sergeant William H. Lambert, Fort Myers.

IDAHO - Master Sergeant Ermon R. Addington, Harrison.

ILLINOIS - Major Charles J. Katz, MC, Oak Park; Captain Ruth C. Tubergen, MC, Elmhurst; Corporal Charles C. Jensen, Chicago; Corporal Edward Johnson, Chicago; Corporal George McHale, East St. Louis; Private Irving Kaplan, Chicago.

INDIANA - Captain Harry M. Brown, MC, Cicero.

IOWA - Major Ralph E. Hibbs, MC, Oskaloosa; Captain Floyd M. Burgeson, MC, Des Moines; Technical Sergeant Milo J. Folsom, Dubuque; Technical Sergeant George J. Gavin, Dubuque; Staff Sergeant Harold M. Amos, Afton; Corporal Eugene H. Evers, Dyersville; Private First Class John A. Moores, Woodbine.

LOUISIANA - Captain Claude P. Daniel, DC, Bogalusa.

MASSACHUSETTS - Private First Class Joseph B. C. Thibeault, Lawrence.

MICHIGAN - Sergeant Frank C. Potyraj, Grand Rapids.

MISSISSIPPI - Staff Sergeant Chester J. Brown, Trenton.

MISSOURI - Master Sergeant Stanley F. Wallace, Sikeston; Technical Sergeant Roy A. Gatewood, Elijah; Corporal Loyd A. Jackson, Holcomb.

NEBRASKA - Corporal Eugene C. Clark, Lincoln.

NEW JERSEY - Corporal Paul M. Browning, Princeton.

NEW MEXICO - Staff Sergeant Roger D. Campbell, Albuquerque; Private First Class Ralph Rodríguez, Bernalillo; Private Espiridion Archibeque, Albuquerque.

NEW YORK - Major William P. Rhudy, MC, Penn Yan; Chief Warrant Officer Frank D. Fischer, New York City; Technical Sergeant Harry J. Staples, Binghamton; Staff Sergeant Grandison N. Vroman, Delanson.

(MORE)

(BRONZE STAR MEDAL AWARDS, Continued)

NORTH DAKOTA - Captain Robert Blatherwick, MC, Van Hook.

OKLAHOMA - Private First Class Don E. Robertson, Ardmore.

OREGON - Major Denton J. Rees, DC, Oregon City.

PENNSYLVANIA - Technical Sergeant Darvin O. Patrick, Hummelstown.

SOUTH CAROLINA - Captain Cecil J. Hawes, MC, Conway.

SOUTH DAKOTA - Staff Sergeant Gerald W. Wagner, Rapid City.

TENNESSEE - Captain Tandy G. Morris, Jr., MC, Jackson; Corporal Lawrence C. Hill, Jellico.

TEXAS - Staff Sergeant Leonard A. Gibbs, Willis; Staff Sergeant Hassell M. Short, Whitesboro; Private First Class John M. Cook, San Marcos; Private John A. McCarty, Henly; Private Jack D. Peak, Leonard.

VIRGINIA - 1st Lieutenant Joshua P. Sutherland, MC, Haysi.

WISCONSIN - Major Charles Leasum, MC, Sturgeon Bay.

PROMOTIONS, OFFICE OF THE SURGEON GENERAL

Major to Lieutenant Colonel

MARGARET D. CRAIGHILL, MC, of Greenwich, Conn., Professional Administrative Service, Chief of Women's Health and Welfare Unit.

1st Lieutenant to Captain

JOHN WISTER MEIGS, MC, of Seattle, Washington, Preventive Medicine Service, Occupational Health Division, Chief of Toxicology Branch.

THERESA T. WOO, MC, of Peiping, China, Preventive Medicine Service, Medical Intelligence Division, Analysis Branch.

2d Lieutenant to 1st Lieutenant

GEORGE J. LALLANDE, MAC, of New Iberia, Louisiana, Personnel Service, Personnel Control Branch.

PAUL J. MILLER, MAC, of Chicago, Illinois, Personnel Service, Personnel Control Branch.

PROMOTIONS, MEDICAL DEPARTMENT

Lieutenant Colonel to Colonel

HARVEY CLARK BOYD, MC, Washington, D. C.
CHARLES HENRY BRAMLITT, MC, Washington, D. C.
JACKSON BERNARD DISMUKES, MC, Haines City, Florida
GEORGE GRANT HENSON, MC, Knoxville, Tennessee
RAYMOND TAYLOR JENKINS, MC, Washington, D. C.
GEORGE ELMER MARTIN, MC, Pittsburgh, Pennsylvania
ALOYSIUS THOMAS WASKOWICZ, MC, Washington, D. C.
CASEY CHILDS, DC, Tulsa, Oklahoma
HENRY JOSEPH TOOMEY, DC, Washington, D. C.

Major to Lieutenant Colonel

CHARLES EDWARD FRANCIS AHLM, MC, Rockford, Illinois
GEOFFREY WATTS BENNETT, MC, Oskaloosa, Iowa
HENRY GRADY FORD, MC, Gadsden, Alabama
ELMER WINK FUGITT, MC, Washington, D. C.
ROBERT SIDELL GEARHART, MC, Madison, Wisconsin
ROBERT ERNEST GRIGSBY, MC, Cincinnati, Ohio
J. WILLIAM HEARN, MC, Washington, D. C.
JOSEPH JOSHUA JACOBS, MC, San Francisco, California
J. HUGH LEWIS, MC, Wyandotte, Michigan
HERMAN JACOB LINN, MC, Mount Ayr, Iowa
JAMES FLOURNOY MARSHALL, MC, Winston-Salem, North Carolina
WILLIAM MONTGOMERY McCLEMENTS, MC, Pittsburgh, Pennsylvania
ISRAEL PETER MERANSKI, MC, Baltimore, Maryland
LAURENCE COLEMAN MILSTEAD, MC, Allentown, Pennsylvania
ALBERT STANLEY MISSALL, MC, Santa Maria, California
HENRY STODDERT PARKER, MC, Washington, D. C.
GEORGE WILLIAM PATTERSON, MC, North Braddock, Pennsylvania
SIMON POLLACK, MC, Tulsa, Oklahoma
WILLIAM WARD RUCKS, JR., MC, Oklahoma City, Oklahoma
LOUIS ABRAHAM SCHNEIDER, MC, New York City, New York
MERRILL SMELTZER, MC, Detroit, Michigan
ROBERT SYDNEY SMITH, MC, Boise, Idaho
WILLIAM HUGH SPRUELL, MC, Russellville, Alabama
THOMAS GUY FOWLER, DC, Glenville, North Carolina
WILLIAM BERTRAND LEE, DC, Kansas City, Kansas
DEAN JUNIOR VAN PATTEN, DC, Marshfield, Wisconsin

ARRIVALS, OFFICE OF THE SURGEON GENERAL

COLONEL JOSEPH H. MCNINCH, MC, of Washington, D. C., formerly European Theater of Operations, assigned to Historical Division.

LIEUTENANT COLONEL JAMES J. CALLAHAN, MC, of Oak Park, Illinois, formerly Fourth Service Command, Atlanta, Georgia, assigned to Orthopedic Branch, Surgical Consultants Division.

LIEUTENANT COLONEL JOHN W. REGAN, MC, of Carlisle, Pennsylvania, formerly overseas, assigned to Sanitation & Hygiene Division, Preventive Medicine Service.

LIEUTENANT COLONEL IVY M. WADSWORTH, ANC, of Auburn, New York, formerly European Theater of Operations, assigned to Army Nurse Branch, Military Personnel, Division, Personnel Service.

MAJOR WARREN W. LACEY JR., MC, of New York, New York, formerly Fourth Service Command, Fort McClellan, Alabama, assigned to Infectious Disease Control Branch, Epidemiology Division, Preventive Medicine Service.

MAJOR DANIEL E. O'KEEFE, AGD, of Portsmouth, Ohio, formerly MDRP, MFSS, Carlisle Barracks, Pennsylvania, assigned to Psychiatry Branch, Neuropsychiatry Consultants Division.

MAJOR HERBERT B. ROLLINS, MC, of Lampasas, Texas, formerly MDRP, Brooke General Hospital, Fort Sam Houston, Texas, assigned Disposition & Retirement Branch, Physical Standards Division, Professional Administrative Service.

MAJOR BERNICE J. SINCLAIR, ANC, of Franklin, New Hampshire, formerly European Theater of Operations, assigned to Army Nurse Branch, Military Personnel Division, Personnel Service.

MAJOR JAMES G. TELFER, PHS, of Monterey, California, formerly Pacific Theater of Operations, assigned to Civil Public Health Division, Preventive Medicine Service.

CAPTAIN JULIUS KAUFFMAN, MC, of Washington, D. C., formerly MDRP, Tilton General Hospital, Fort Dix, New Jersey, assigned to Development Branch, Technical Division, Operations Service.

CAPTAIN RUSSELL S. KRIBS, MAC, of St. Louis, Missouri, formerly European Theater of Operations, assigned to Organization and Equipment Allowance Branch, Technical Division, Operations Service.

CAPTAIN HASTY W. RIDDLE, MAC, of Pittsboro, North Carolina, formerly Deshon General Hospital, Butler, Pennsylvania, assigned to Statistics and Records Branch, Military Personnel Division, Personnel Service.

CAPTAIN WILLIAM W. WHITE, MAC, of Providence, Rhode Island, formerly MDRP, Tilton General Hospital, Fort Dix, New Jersey, assigned to Liaison Branch, Purchase Division, Supply Service.

1ST LIEUTENANT JOHN R. MODLIN, MAC, of Richmond, Virginia, formerly MDRP, Tilton General Hospital, Fort Dix, New Jersey, assigned to Mail and Records Branch, Office Service Division.

REASSIGNMENTS, OFFICE OF THE SURGEON GENERAL

MAJOR DANIEL DEYOE, MC, formerly Physical Standards Division, Induction Branch, assigned to Physical Standards Division, Disposition and Retirement Branch.

DEPARTURES, OFFICE OF THE SURGEON GENERAL

COLONEL FRANK E. STINCHFIELD, MC, of New York, formerly Reconditioning Consultants Division, assigned Headquarters, Second Service Command, Governors Island, New York.

LIEUTENANT COLONEL CHARLES G. GRUBER, SnC, of Washington, D.C., formerly Storage and Maintenance Division, Supply Service, Chief of Maintenance Branch, assigned to Headquarters, Chief Surgeon USAEFT, APO 887, New York, New York.

LIEUTENANT COLONEL HAROLD C. LUETH, MC, of Evanston, Illinois, formerly Military Personnel Division, Personnel Service, Chief of Classification Branch, assigned to 110th General Hospital, ASFTC, Camp Sibert, Alabama.

LIEUTENANT COLONEL BERNARD N. RIORDAN, MAC, of San Francisco, California, formerly Director of Storage & Maintenance Division, Supply Service, assigned overseas.

MAJOR TOLBERT H. BELCHER, MAC, of Birmingham, Alabama, formerly Stock Control Division, Administrative Assistant to Chief of Supply Service, Chief of Liaison Branch, to be assigned to MDRP, Letterman General Hospital, Presidio of San Francisco, California.

MAJOR FREDERICK FINK, MC, of Arlington, Virginia, formerly Physical Standards Division, Professional Administrative Service, Disposition & Retirement Branch, assigned Army Medical Purchasing Office, New York.

MAJOR MARGARET JANEWAY, MC, of New York, New York, formerly Women's Health and Welfare Unit, Professional Administrative Service, assigned to Separation Center, Fort Dix, New Jersey.

MAJOR PAUL HARRY LANGNER, JR., MC, of Drexel Hill, Pennsylvania, formerly Technical Division, Operations Service, Organization & Equipment Allowance Branch, assigned to MDRP, MFSS, Carlisle Barracks, Carlisle, Pennsylvania.

MAJOR ROBERT M. OLSON, MC, of Palmyra, Pennsylvania, formerly Military Personnel Division, Personnel Service, Operations Branch, assigned to Detachment of Patients, Walter Reed General Hospital, Washington, D. C.

CAPTAIN SIDNEY HYMAN, MAC, of Chicago, Illinois, formerly Historical Division, to be assigned Separation Center, Ft. Sheridan, Illinois.

CAPTAIN MARION B. MEDLIN, MAC, of Carey, North Carolina, formerly Storage and Maintenance Division, Supply Service, Maintenance Branch, assigned to New York Port of Embarkation, Fort Hamilton, Brooklyn 9, New York.

CAPTAIN JOHN R. MONNINGER, MAC, of San Bernardino, California, formerly Personnel Service, Military Personnel Division, Records & Statistics Branch, assigned to Headquarters, Ninth Service Command, Fort Douglas, Utah.

CAPTAIN STEWART C. THOMSON, MC, of Byron, Illinois, formerly Medical Intelligence Division, Preventive Medicine Service, Chief of Collection Branch, assigned to Separation Center, Fort Sheridan, Illinois.
